Energy Efficiency

HB 1565 Local tax and regulatory incentives; green development zones.

Chief patron: Webert

Authorizes localities to create green development zones that provide certain tax incentives and regulatory flexibility for up to 10 years to a business operating in an energy-efficient building or to a business whose products reduce negative environmental impact.

02/17/17 Governor: Approved by Governor-Chapter 27 (effective 7/1/17)

HB 2390 Renewable energy power purchase agreements; expands pilot program.

Chief patron: Kilgore

Expands the pilot program for renewable energy power purchase agreements authorized under legislation enacted in 2013 by directing that a pilot program be conducted by Appalachian Power. Currently, a pilot program is authorized only within Dominion Power's service territory. The measure provides that within the certificated service territory of Appalachian Power, nonprofit, private institutions of higher education that are not being served under a specific renewable generation tariff provision are deemed to be customer-generators eligible to participate in the pilot program, without the requirement that they participate in the utility's net energy metering program. The aggregated capacity of all generation facilities that are subject to third party power purchase agreements in Appalachian Power's pilot program is capped at seven megawatts.

04/05/17 Governor: Acts of Assembly Chapter 803 (effective 7/1/17)

SB 886 Gas severance tax.

Chief patron: Chafin

Extends the sunset date from January 1, 2018, to January 1, 2020, for the local gas severance tax that is dedicated to (i) the local Coal and Gas Road Improvement Fund, (ii) the Virginia Coalfield Economic Development Fund, and (iii) water, sewer, and natural gas systems and lines. This bill is identical to HB 2169 (Pillion, Ch 52).

03/13/17 Governor: Approved by Governor-Chapter 443 (effective 7/1/17)

SB 990 Electric energy consumption reduction goal; progress reports.

Chief patron: Dance

(SB 990 con't) Directs the Department of Mines, Minerals and Energy, in consultation with the staff of the State Corporation Commission, to report annually, commencing no later than December 15, 2018, on the progress the Commonwealth is making toward meeting the goal adopted in 2007 of reducing the consumption of electric energy by retail customers by the year 2022 by an amount equal to 10 percent of the amount of electric energy consumed by retail customers in 2006. The bill requires the reports to be made to the General Assembly, the Governor, and the Governor's Executive Committee on Energy Efficiency.

03/16/17 Governor: Approved by Governor-Chapter 568 (effective 7/1/17)

SB 1018 Temporary exemption periods from retail sales and use taxes for qualifying items; sunset dates.

Chief patron: Barker

Extends from July 1, 2017, to July 1, 2022, the sunset dates for the sales tax holiday periods for school supplies and clothing, Energy Star and WaterSense products, and hurricane preparedness products. This bill is identical to HB 1529 (Ward, Ch 26).

03/13/17 Governor: Approved by Governor-Chapter 446 (effective 7/1/17)

SB 1393 Electric utilities; community solar pilot programs.

Chief patron: Wagner

Requires Dominion Virginia Power and Appalachian Power to conduct a community solar pilot program for retail customers. A pilot program will authorize the participating utility to sell electric power to subscribing customers under a voluntary companion rate schedule, and the utility will generate or purchase the electric power from eligible generation facilities selected for inclusion in the pilot program. An eligible generation facility is an electrical generation facility that (i) exclusively uses energy derived from sunlight; (ii) is placed in service on or after July 1, 2017; (iii) is not constructed by an investor-owned utility but is acquired by an investor-owned utility through an asset purchase agreement or is subject to a power purchase agreement under which the utility purchases the facility's output from a third party; and (iv) has a generating capacity not exceeding two megawatts, subject to an exception. Pilot programs will have a three-year duration unless renewed or made permanent by appropriate legislation. The measure requires an investor-owned utility to select eligible generating facilities for dedication to its pilot program through a request for proposal (RFP) process. The minimum generating capacity of the eligible generating facilities in Appalachian Power's pilot program is 0.5 MW and in Dominion's pilot program is 10 MW. The maximum generating capacity of the eligible generating facilities in Appalachian Power's pilot program is 10 MW and in Dominion's pilot program is 40 MW. The measure establishes a procedure through which an investor-owned utility may increase the generating capacity of facilities in its pilot program above the amount most recently

(SB 1393 con't) approved by the State Corporation Commission. The measure provides that an investor-owned utility may recover pilot program costs that are not recovered through the voluntary companion rate schedule through variable-output contracts with participating third parties. Such costs would include costs associated with unsubscribed generation offered under the pilots. A subscribing customer's usage above the amount subscribed for the voluntary companion rate schedule shall be billed under the customer's applicable standard rate. The measure authorizes a utility consumer services cooperative to conduct a pilot program and gives the cooperative flexibility in designing its program and voluntary companion rate schedule. The measure declares that the participation of retail customers in a pilot program is in the public interest and that the voluntary companion rate schedules approved are necessary in order to acquire information which is in furtherance of the public interest. The measure requires the Commission to approve the recovery of pilot program costs that it deems to be reasonable and prudent, the pilot program design, the voluntary companion rate schedule, and the portfolio of participating generating facilities. Commission review or approval is not required for individual participating generating facilities, agreements, sites, or RFPs. The measure provides that an approved voluntary companion rate schedule shall not be considered a tariff for electric energy provided 100 percent from renewable energy. An enactment clause directs investor-owned utilities, prior to submitting a proposal for a pilot program, to examine, in cooperation with representatives of relevant governmental, nonprofit, and for-profit entities, options to facilitate the subscribing by low-income customers to the utility's pilot program. Another enactment clause requires participating utilities to disclose to subscribing customers the cost difference between the voluntary companion rate schedule and rate the customer would pay if it was not a subscriber.

03/16/17 Governor: Approved by Governor-Chapter 580 (effective 7/1/17)

SB 1394 Small agricultural generators; establishes parameters of a program.

Chief patron: Wagner

Establishes the parameters of a program under which small agricultural generators may sell the electricity generated from a small agricultural generating facility to its utility. Effective July 1, 2019, enrollment by eligible agricultural customer-generators in an existing net energy metering program conducted by an electric cooperative will cease, though a cooperative's customers who were participating as eligible agricultural customer-generators before that date are allowed to remain in the net metering program for not more than 25 years. A small agricultural generator is defined in this measure as a customer who operates an electrical generating facility as part of an agricultural business, which generating facility, among other conditions, has a capacity of not more than 1.5 megawatts, uses renewable energy as its total source of fuel, has a capacity that does not exceed 150 percent of the customer's expected annual energy consumption based on the previous 12 months of billing history, uses not more than 25 percent of contiguous land owned or controlled by the agricultural business for purposes of the renewable energy generating facility, and is a

PURPA qualifying small power production facility. The program for small agricultural generators requires the generator to enter into a power purchase agreement with its (SB 1394 con't) supplier to sell all of the electricity generated at a rate not less than the supplier's State Corporation Commission-approved avoided cost tariff for energy and capacity. The program also provides for utilities to recover distribution service costs and costs incurred to purchase electricity, capacity, and renewable energy certificates from the small agricultural generator through its Renewable Energy Portfolio Standard (RPS) rate adjustment clause if the utility has a Commission-approved RPS plan and rate adjustment clause or, if the utility does not have a Commission-approved RPS rate adjustment clause, then the costs shall be recoverable through the supplier's fuel adjustment clause or through the utility's cost of purchased power. Finally, the measure directs the Commission to conduct a single docketed proceeding to implement the provisions of this measure. The bill incorporates SB 917 (Edwards) and is identical to HB 2303 (Minchew, Ch 565).

03/16/17 Governor: Approved by Governor-Chapter 581 (effective 7/1/17)

SB 1395 Small renewable energy projects; eligibility for permits by rule.

Chief patron: Wagner

Provides that certain small renewable energy projects proposed, developed, constructed, or purchased by (i) a public utility if the project's costs are not recovered from Virginia jurisdictional customers under base rates, a fuel factor charge, or a rate adjustment clause or (ii) a utility aggregation cooperative, are eligible for a permit by rule and are exempt from environmental review and permitting by the State Corporation Commission. The measure specifies that a small renewable energy project shall be eligible for permit by rule if it is proposed, developed, constructed, or purchased by a person that is not a regulated utility. The measure exempts a small renewable energy project for which the Department of Environmental Quality has issued a permit by rule from the requirement that it obtain a certificate of public convenience and necessity for the construction or operation of the project. Also, the measure increases the maximum rated capacity of solar and wind facilities that qualify as small renewable energy projects from 100 megawatts to 150 megawatts.

03/13/17 Governor: Approved by Governor-Chapter 368 (effective 7/1/17)

SB 1418 Electric utilities; costs of pumped hydroelectricity generation and storage facilities.

Chief patron: Chafin

Authorizes an investor-owned electric utility to petition the State Corporation Commission for approval of a rate adjustment clause for recovery of the costs of one or more pumped hydroelectricity generation and storage facilities that utilize associated on-site or off-site renewable energy resources as all or a portion of their power source and such facilities and associated resources are located in the coalfield region of the Commonwealth. The measure

provides that the requirement that a utility demonstrate that it has considered and weighed (SB 1418 con't) alternative options, including third-party market alternatives, in its selection process does not apply to these generation and storage facilities.

04/05/17 Governor: Acts of Assembly Chapter 820 (effective 7/1/17)

SB 1473 Electric utilities; recovery of costs of undergrounding distribution lines.

Chief patron: Saslaw

Declares that the replacement of any subset of an investor-owned electric utility's existing overhead distribution tap lines that have, in the aggregate, an average of nine or more total unplanned outage events-per-mile over a preceding 10-year period with new underground facilities in order to improve electric service reliability is in the public interest. The measure also provides that there shall be a rebuttable presumption that (i) the conversion of such facilities will provide local and system-wide benefits, (ii) the new underground facilities are cost beneficial, and (iii) the costs associated with the new underground facilities are reasonably and prudently incurred. An enactment clause provides that the measure shall apply to any applications pending with the Commission regarding new underground facilities on or after January 1, 2017. Another enactment clause directs an investor-owned incumbent electric utility to provide written notice to any cable operator of a cable television system that has attached its facilities to its poles that will be replaced in a project to underground existing overhead distribution tap lines not less than 90 days prior to relocating the utility's overhead distribution lines. The clause also establishes a procedure for negotiating a common shared underground easement.

03/16/17 Governor: Approved by Governor-Chapter 583 (effective 1/1/17)

Environment and Water Resources

HB 1472 Conflict of Interests Act, State and Local Government; prohibited contracts, exceptions. *Chief patron: Lingamfelter*

Provides an exception to the prohibition against contracts between employing agencies and their officers or employees for contracts by an officer or employee of a soil and water conservation district to participate in a cost-share program for the installation of best management practices to improve water quality. The exception does not apply to subcontracts or other agreements entered into to provide services for implementation of a cost-share contract established under such program. The bill provides that the exception applies to all contracts entered into on and after July 1, 2017, and to any contract entered into by an officer or employee or an immediate family member of such officer or employee with a soil and water conservation district to participate in a cost-share program for the installation of best management practices to improve water quality prior to 7/1/17.

SB 1312 Conflicts of Interests Acts, State & Local Government & General Assembly, lobbyist, filing.

Chief patron: Norment

Makes numerous changes to the laws governing lobbyist reporting, the conflict of interest acts, and the Virginia Conflict of Interest and Ethics Advisory Council (the Council), including (i) allowing the Secretary of the Commonwealth to suspend any penalty that could be assessed against a lobbyist's principal for failing to file the required disclosure if such failure is beyond the control of the principal; (ii) clarifying the procedures for terminating the services of a lobbyist; (iii) requiring that lobbyist registration forms be filed electronically; (iv) eliminating the requirement that a lobbyist list the names, addresses, and telephone numbers of all other lobbyists representing the same principal; (v) creating a separate statement for a lobbyist's principal to waive the principal signature requirement on the lobbyist disclosure form; (vi) granting the clerk of the local governing body or school board the same power as the Council to redact from any disclosure form released to the public any residential address, personal telephone number, or signature; (vii) eliminating the minimum duration of the mandatory refresher ethics orientation session for General Assembly members; (viii) allowing written informal advice from the Council to confer immunity from prosecution upon individuals acting in accordance with such advice; (ix) clarifying the Council's authority to grant extensions from the filing deadline and imposing a \$250 civil penalty on agency heads or local clerks who fail to provide the disclosure forms to filers in a timely manner; (x) requiring lobbyists to provide a report of gifts made during a regular session of the General Assembly no later than three weeks after adjournment to legislators and certain executive branch officials who are required to file a session gift report; and (xi) directing that candidates for statewide or constitutional office and the General Assembly are required to file a disclosure form with the State Board of Elections and not the Council. The bill also extends the filing deadline for disclosure forms from January 15 to February 1 and clarifies the reporting period covered by the disclosure forms. The bill eliminates events open to individuals who share a common interest from the definition of a "widely attended event," attendance at which is not subject to the gift cap. The bill also exempts from the definition of a "gift" (a) gifts from a person's child-in-law; (b) gifts related to a person's volunteer service; (c) meals provided for attendance at an official meeting of the Commonwealth, its political subdivisions, or certain other entities; (d) gifts given on a special occasion by an individual in a bona fide personal relationship with the donee; and (e) attendance at a reception or similar function. The bill also exempts members of the judiciary from certain provisions governing prohibited gifts and prohibited personal interests in a transaction where such members are already subject to similar or greater prohibitions under the Canons of Judicial Conduct for the State of Virginia. The bill also clarifies that a legislator may have a personal interest in a contract with a government agency, not including a legislative branch agency, when the Virginia Public Procurement Act allows the award of such contract without competition. The bill further clarifies the exceptions that allow state and local officers and employees who have a personal interest in a transaction to participate in the transaction. Finally, the bill contains technical

(SB 1312 con't) amendments. The bill contains an emergency clause that applies to the changes described in clauses (x) and (xi).
